

The Department of Industrial and Systems Engineering (ISE) at Lehigh University invites applications for its Ph.D. program.

Faculty and students in the department are involved in cutting-edge research in a variety of extremely active areas including

- mathematical optimization,
- data science and machine learning,
- energy and service systems, and
- high-performance computing.

Our PhD alumni have been recruited by top universities, research institutions, and companies. For more information, please see our website: <http://ise.lehigh.edu>

Financial support is guaranteed for first-year students. Subsequent support is available through research advisors and their federal, state, and industry grants.

Please direct any questions to Frank E. Curtis <frank.e.curtis@lehigh.edu>
